passenger lounge of the shuttle being prepared for lift-off in Bay 5 at Canaveral base, Veronica sat nursing a large martini and quietly studying the pattern of activity around her and her escorts. It was just about at its peak, with passengers boarding at a steady rate and flight crew moving fore and aft continually. But most of the faces had not yet had time to register. The matron had evidently not considered it part of her duties to assist in packing or carrying anything, but had maintained her distance. defensive tactics might be employed. -Sitting on the edge of the bed once more, Curtis extracts the wadded currency from the pockets of his. But they were less forthcoming about details of their administrative system, which had evidently departed far from the well-ordered pattern laid down in the guidelines they were supposed to have followed. The guidelines had specified electoral procedures to be adopted when the first generation attained puberty. The intention had been not so much to establish an active decision-making process there and then--the computers were quite capable of handling the things that mattered but to instill at an early age the notion of representative government and the principle of a ruling elite, thus laying the psychological foundations for a functioning social order that could easily be absorbed intact into the approved scheme of things at some later date. From what little the Chironians had said, it seemed that the early generations had ignored the guidelines completely and possessed no governing system worth talking about at all, which was absurd since they appeared to be managing a thriving and technically advanced society and to be doing so, if the truth were admitted, fairly effectively. Although he was riding shotgun position beside the..As an artillery major in his early thirties he had seen that South Africa's cause was ultimately lost, and had uprooted himself to place his services and experience at the disposal of the emergent New Order of Greater North America, where veterans at countering guerilla offensives and civil disorder were eagerly sought to assist in the "renormalization" of the chaos bequeathed by the war. Promoted rapidly through the ranks of an elite entrusted with the might of the new nation, Borstein glimpsed a vision of commanding a force truly capable of bringing to heel the entire world. But the vision had been short-lived. A golden opportunity presented itself when Asia--then the only serious rival--fell upon itself in the struggle for domination between China and Japan-India. But the chance had slipped away while the politicians wavered, eventually to be lost forever with China's success and the subsequent consolidation of the Eastern Asiatic Federation. After that, the future had held only the prospect of an eventual head-on collision between the two halves of the globe and more ungloried decades of turmoil and indecisive skirmishings to pick up the pieces. Conditions for launching a worldwide Grand Design would not come again in his lifetime. And so he had left to seek a more rewarding destiny with the Mayflower II. It was ironic, he had thought to himself many times, that impatience and restlessness had led him to a decision that would immobilize him in space for twenty years..".I was almost twelve when it ended..".Stern looked displeased at the response. "Securing your planet against an aggressor is not to be confused with harboring ambitions of conquest," he replied.
