Sparky wasn't a bad guy, not easily bought, and if he'd

been asked to sell out any tenant other than Cain, he probably wouldn't have done so at any price. He greatly disliked Cain, however, and considered him to be "as strange and creepy as a syphilitic monkey." "Soon as Cain is out of sight, we yank up our tricky vending machines, then haul the real ones out of the van and bolt 'em down again. Slick, fast. People are still picking up quarters when we finish. And get this-they want to know where the camera is." Neddy talked when Celestina paused for breath, talked over her when she didn't pause, heard only his own mellifluous voice and was pleased to conduct both sides of the conversation, wearing her down as surely as though far more rapidly than the sand-filled winds of Egypt diminished the pharaohs' pyramids. He talked through the first polite "Excuse me" of the tall man who stepped into the open doorway behind him, through the second and third, and then with an abruptness that was as miraculous as any cure at the shrine of Lourdes, he fell silent when the visitor put a hand on his shoulder, eased him gently aside, and entered the apartment. Edom observed, amazed, as Agnes chatted up their host, going from Mr. Sepharad to Obadiah, from the doorstep to the living room, the pie delivered and accepted, coffee offered and served, the two of them pleased and easy with each other, all in the time that it would have taken Edom himself to get up the nerve to cross the threshold and to think of something interesting to say about the Galveston hurricane of 1900, in which six thousand had died. A nurse in surgical greens appeared. "Pull up the sleeves of your scrub nearly to your elbows. Scrub hard. I'll tell you when to stop." JUNIOR CAIN WANDERED among the Philistines, in the gray land of conformity, seeking one-just one-refreshingly repellent canvas, finding only images that welcomed and even charmed, yearning for real art and the vicious emotional whirlpool of despair and disgust that it evoked, finding instead only themes of uplift and images of hope, surrounded by people who seemed to like everything from the paintings to the canapes to the cold January night, people who probably hadn't spent even one day of their lives brooding about the inevitability of nuclear annihilation before the end of this decade, people who smiled too much to be genuine intellectuals, and he felt more alone and threatened than eyeless Samson chained in Gaza. He didn't rely, either, on a sixth sense to detect obstacles or open spaces, which some blind people claimed to have. Sometimes instinct told him that in his path was an object that ordinarily would not have been there; but as often as not, it went undetected, and unless he was using his cane, he tripped over it. The sixth sense was greatly overrated. He pointed at his feet. "Toes, toes, toes, toes, toes, toes, toes, toes, toes." She moved beside him. "For one minute, after her heart stopped the first time, she wasn't here in St. Mary's, was she? Her body, yes, that was still here, but not Phimie." Paul's Mediterranean complexion didn't make a blush easy to detect, but Tom thought his face brightened until it was a shade or two closer to the color of his rust-red hair. His eyes, usually so direct, evaded Celestina. This Monday morning in Oregon was bleak, with the swollen, dark bellies of rain clouds swagging low over the cemetery, a dreary send-off for Naomi, even though rain was not yet falling. Holding on to the jamb with one hand, Barty leaned across the threshold, listening to the day. Birds. Softly rustling leaves. Nobody on the porch. Even trying hard to be quiet, people always made some little noise. As Junior paced the hotel room, his fear made way for anger. All he wanted was peace, a chance to grow as a person, an opportunity to improve himself. And now this. The unfairness, the injustice, galled him. He seethed with a sense of persecution. Already another contraction racked her, so intense that the pain was not limited to her lower back and abdomen, but seared the length of her spine, like an electric current leaping vertebra to vertebra. Her breath pinched in her chest as though her lungs had collapsed. The diarrhea was over, finished, part of the past. Long ago he had learned never to dwell on the past, never to be overly concerned about the worries of the present, but to be focused entirely on the future. He was a man of the future. Edom, who had never made it big, medium, or little, watched his sister blur before him. He strove to contain the shimmering hotness in his eyes. His love was not for magic, and his pride was not in any skill he possessed, for he possessed none worth noting. His love was for his good sister; she was his pride, too, and he felt that his small life had precious meaning as long as he was able to drive her on days like this, carry her pies, and occasionally make her smile. "You look very, very handsome this morning, Mr. Barty," squeaked Pixie Lee, who was something of a flirt. "You look like a big movie star." After Agnes read the final words on the final page, Barty was drunk on speculation, chattering about what-might-have-happened-next to these characters that had become his friends. He talked nonstop while changing into his pajamas, while peeing, while brushing his teeth, and Agnes wondered how she would wind him down to sleep. With Naomi, sex had been glorious, because they were bonded on multiple levels, all deeper than the mere physical. They had been so close, so emotionally and intellectually entwined, that in making love to her, he'd been making love to himself; and he would never experience a greater intimacy than that. Eventually, of course, dear Edom held forth about tornadoes--in particular the infamous Tri-State Tornado of 1925, which ravaged portions of Missouri, Illinois, and Indiana. Anyway, the thing that scared her was not the monstrous father of this child. The fearsome thing was the decision that she had made a few minutes ago, in the unused hospital room on the seventh floor. Ever the romantic, he wanted to surprise her. Voila! Flowers, wine, and moi. Since their electrifying connection in the hospital, she had been yearning for him; but she wouldn't expect a visit for a few weeks yet. He was eager to see her face brighten with delight. "Go home. Sleep," he said. "You'll be no help to your sister if you wind up a patient here yourself." An emergency kit in the trunk of his car contained a flashlight. He fetched it and sweetened the bribe to the valet. Someone named Bartholomew had adopted Seraphim's son and named the boy after himself. Junior applied the patience learned through meditation to the task at hand, and instinctively, he soon evolved a motivating mantra that continuously cycled through his mind while he studied the telephone directories: Find the father, kill the son. He was a man with a plan, focused, committed, ready to act and then think, as soon as he was able to act. A spasm of pain weakened his hand. Cartridges slipped through his fingers, fell to the floor. Nurses were supposed to be angels of mercy. She had shown him no mercy. And she was certainly no angel. His apartment, over the large garage, was reached by a set of exterior stairs. The space was divided into two rooms. The first was a combination living room and kitchenette, with a corner dining table seating two. Beyond was a small bedroom with adjoining bath. In her arms, little Barty burbled contentedly, unaware that his destiny supposedly included epic love, fabulous riches, and violence. "How's something so delicious come from a fat, smelly, dirty, snorting old pig?" Certain the caller was the police operator, Junior screamed as though in agony, wondering if his cries sounded genuine, since he'd had no opportunity to rehearse. Then, in spite of the painkiller, his cries suddenly were genuine. "And in a lot of somewheres," said Barty, "things are worse for us than here. Some somewheres, you died, too, when I was born, so I never met you, either." The stump was capped at the end of the internal cuneiform, depriving Junior of everything from the metatarsal to the tip of the toe. He was delighted with this result, because successful reattachment would have been a calamity. During the five years following Agnes's death, their family of many names thrived. Barty and Angel had brought them all together in this place fifteen years previously, but the destiny about which Toni had spoken on the back porch, that night in the rain, seemed to

be in no hurry to manifest itself Barty could find no painless way to sustain secondhand sight, so he lived without the light. Angel had no reason to shove anyone else into the world of the big bugs, where she'd pushed Cain. The only miracles in their lives were the miracles of love and friendship, but the family remained convinced of eventual wonders, even as they got on with the day at hand..Frowning, Agnes said. "Yes, those stories. Sweetie, when Uncle Edom and Uncle Jacob go on about big storms blowing people away and explosions blowing people up ... that's not what life's about.".The stumpy ghost departed the sliding stairs at the second floor and walked off into women's sportswear..Here, four days past Christmas, after two days of torment, Agnes knew the worst, that her treasured son must go eyeless or die, must choose between blindness or cancer of the brain..Returning to his apartment, Edom had to pass under the limbs of the majestically crowned oak that dominated the deep yard between the house and the garage..She pushed her chair back from the table and got to her feet, and everyone followed her example..Again, he cast his line of memory into murky waters nearly four years in the past, to the night of passion that he had shared with Seraphim in the parsonage. As before, he could recall nothing she'd said, only the exquisite look of her, the nubile perfection of her body..holding hands as they watched John Wayne in *The Searchers*, David Niven in *Around the World in 80 Days*. They were so young then, sure they would live forever, and they were still young now, but for one of them, forever had arrived..All he cared about was Red Planet, and what might happen after page 103. He had carried the book with him to the doctor's office, and on the way home in the car; he repeatedly opened it, squinting at the lines of type, trying to read around or through the "twisty" spots. "Jim and Frank and Willis, they're in deep trouble.".Celestina expected to be taken to a waiting room, but instead the nun escorted her to surgical prep..He let go of the girl's chin, and at once she scrunched into the corner of the window seat, as far away from him as she could get. The knowing look in her eye wasn't that of an ordinary child, not that of a child at all. Not his imagination, either. Terror, yes, but also defiance, and this knowing expression, as though she could see right through him, knew things about him that she had no way of knowing.. "See this?" He placed the pepper shaker in front of her on the room-service table and held the salt shaker concealed in his hand.. "This is going to be an enormous settlement," the attorney promised. "And there's more good news. County and state authorities have agreed to close the case on Naomi's death. It's now officially an accident.".He could have killed someone named Henry or Larry, without risk of creating a Bartholomew pattern that would prickle like a pungent scent in the hound-dog nostrils of Bay Area homicide detectives. But he restrained himself..She leaned against the apartment door for a long moment, holding on to the doorknob and to the thumb-turn of the second deadbolt, as though she were convinced that if she let go, she would float off the floor like a cloud-stuffed child..Downstairs, two shots cracked, and an instant after the second, an explosion shook the parsonage as though the long-promised Judgment were at hand. This was a real explosion, not the impact of another runaway Pontiac.. "I'm afraid you're wrong." When Tom opened his left hand, the palm lay as bare as that of a blind beggar in a country of thieves. Meanwhile, his right hand had tightened into a fist again.. "When you didn't answer the doorbell, man, I just knew what must have happened," Chicane told Junior..FOR AMERICANS OF Chinese descent-and San Francisco has a large Chinese population-1965 was the Year of the Snake. For Junior Cain, it was the Year of the Gun, though it didn't start out that way..Grinning but with an odd edge of concern in his expression that Celestina could see even through her tears, Wally said, "Does that mean you ... you will?".Onto its roof now, the Pontiac spun as it slid, grinding loudly against the blacktop, and regardless of how determinedly Agnes held on, she was being pulled out of her seat, toward the inverted ceiling and also backward. Her forehead knocked hard into the thin overhead padding, and her back wrenched against the headrest..He had time to think of quite a few, because he drove five miles per hour below the posted speed limit. He couldn't risk being stopped for a traffic violation when Thomas Vanadium, the human stump, was dead and bundled in the back..Chicane packed the ice against Junior's thighs. "Severe spasm causes inflammation. Twenty minutes of ice alternating with twenty minutes of massage, until the worst passes.".He was as solid as any boy. He was in the day but not in the rain. He was moving toward the back of the car..ANGEL WAS DRESSED in as much red as the devil himself: bright red shoes, red socks, red leggings, red skirt, red sweater, and a knee length red coat with a red hood..Celestina had a delayed reaction to Barty's name. An odd look came over her. "Barty? Short for ... Bartholomew?".More good American music. The Supremes were Negroes, sure, but Junior was not a bigot. Indeed, he had once made passionate love to a Negro girl.. "Pie, pie, pie, pie, pie, pie, pie, pie," Barty repeated in the same tone of self-satisfied delight that he used when announcing "Barty potty.".Happiness could grow out of unspeakable tragedy with such vigor that it produced dazzling blooms and lush green bracts. This insight served, for Celestina, as a primary inspiration for her painting and as proof of the grace granted in this world that we might perceive and be sustained by the promise of an ultimate joy to come..Grace, proving again the aptness of her name, said the one thing most likely, in time, to bring true peace to Celestina. "Remember Bartholomew.".Now, after removing the four decks of cards from the pressboard packs in which they had come, Jacob lined them up side by side on the scarred maple top of the table..Junior wanted to shoot all of them, but he said, "Take it. Keep it. Get it the hell out of here.".Eventually, dinner over, cleanup finished, when Maria and the uncles had gone, Agnes and Barty faced the stairs together. She followed, holding his cane, which he said he preferred not to use in the house, prepared to catch him if he stumbled..He had been thankful that during the long trance, he hadn't wet himself. Now he would gladly have accepted any amount of humiliation rather than suffer these vicious cramps..Of firm but pliable rubber, custom-formed to his disfigured foot, a shoe insert filled the void left by his missing toe. This simple aid ensured that virtually all footwear was comfortable, and by November, Junior walked with no discernible limp..He stabbed Prosser, however, merely to relieve his frustration and to enliven the dull routine of a life made dreary by the tedious Bartholomew hunt and by loveless sex. In return for more excitement, he'd assumed greater risk, to mitigate risk, he must have insurance..Lifted from his despair by this exhilarating wrath, Junior turned away from the mirror, looking for the bright side once more. Perhaps it was the bathroom window..Turning, turning, turning, the mysterious warning in his mind: The spirit of Bartholomew ... will find you ... and mete out the terrible judgment that you deserve.
