After carrying the two pieces of luggage to the car in the garage, he returned to the study. He sat at the desk and examined the contents of the drawers, then turned to the file cabinet..Given a child-size harmonica, he extemporized simplified versions of songs he heard on the radio. The Beatles' "All You Need Is Love." The Box Tops' "The Letter." Stevie Wonder's "I Was Made to Love Her." After hearing a tune once, Barty could play a recognizable rendition..At 3:31 A.M., even the early-winter dawn wasn't near, yet Junior was too awake to return to bed. Though sweet, though melancholy, never ominous, the ghostly singing had left him feeling ... threatened. He considered taking a shower and getting an early start on the day. But he kept remembering Psycho: Anthony Perkins dressed in women's clothes and wielding a butcher knife.."Our little girl's going to walk backward her whole life if you drive in reverse all the way to the hospital."..By nature, she was unable to hold fast to resentment, couldn't nurture a grudge, and was incapable of vengeance. She had forgiven even her father, who had put her through hell for so long, who had blighted the lives of her brothers, and who had killed her mother. Forgiving was not the same as condoning. Forgiving did not mean that you had to exonerate or forget..The blessing of Nellie's silence lasted only until Hanna, cursed with speech if not with sufficient strength to stand, said, "We tried to reach you, Mr. Damascus, but you'd already left the pharmacy."..Bartholomew's genius might have been intimidating, even off-putting, if he'd not been as much child as child genius. Likewise, he would have been wearisome if impressed by his own gifts.."I just wanted everyone to come see the spider, that's all. It was a really, really icky interesting bug.".."Mom always says that pigs will surely fly one day if ever Daddy chooses to convince them that they've got wings."..For just one hour, which was not too taxing, he walked in the idea of a world where he had healthy eyes, and shared the vision of other Barty's in other places, so he would be able to see his bride as she walked down the aisle and as, beside him, she took their vows with him, and as she held out her hand to receive the ring..Rico, her own husband-a drunkard and a gambler-had run off with another woman, abandoning Maria and their two small daughters. No doubt, he had departed in a spotlessly clean, sharply pressed, perfectly mended ensemble..Vanadium's vehicle, obviously not an official police sedan, was a blue 1961 Studebaker Lark Regal. A dumpy and inelegant car, it looked as though it had been designed specifically to complement the stocky detective's physique..Vanadium clearly spent a lot of time in the kitchen; it was the only room in the house that felt comfortable and lived-in. Lots of culinary gadgets, appliances. Pots and pans hanging from a ceiling rack. A basket of onions, another of potatoes. A grouping of bottles with colorful labels proved to be a collection of olive oils..Throughout this procedure, Barty appeared solemn and thoughtful. When he had squeezed the tenth toe, he stared at it, brow furrowed..From her Volkswagen bus in the middle of the line, Maria joined them. "In case we get separated, Agnes, I don't have an itinerary."..They could not have been more solemn or more respectful if Naomi's corpse--stitched back together, pumped full of embalming fluid, painted with pancake makeup, dressed in white, with her cold hands clasping a Bible to her breast-had been reposing in a casket in this very room, surrounded by flowers and awaiting the arrival of mourners. They were all polite, soft-spoken, sad-eyed, oozing unctuous concern--and so full of feverish calculation that Junior wouldn't have been surprised if they had set off the ceiling-mounted fire sprinklers..Never before had she put faith in any form of prognostication. In the whispery falling of those twelve cards, however, she heard the faint voice of truth, not quite a coherent truth, not as clear a message as she might have wished, but a murmur that she couldn't ignore..No more than a minute after Vanadium departed, a nurse arrived in a rush, no doubt sent by the hateful cop. Hard to tell, through all the tears, if she was a looker. A nice face, perhaps. But such a stick-thin body.."At home," Otter said. It wasn't a lie. He did have a pouch at home. He kept his fine-work tools and his bubble level in it. And he wasn't altogether lying about the wind. Several times he had managed to bring a bit of magewind into the sail of a boat, though he had no idea how to combat or control a storm, as a ship's weatherworker must do. But he thought he'd rather drown in a gale than be murdered in this hole..He hurried the length of the diner, pushing past waitresses, checking out all three of the possibilities, but of course, none of them was the dead detective--or anyone else Junior had ever seen before. He was looking for--what?--a ghost, but vengeful ghosts didn't sit down to a meat-loaf lunch in the middle of a hauntin..He carried the mug to the sink, poured the brew down the drain and saw the cooler standing in the corner. He hadn't noticed it before. A medium-size, molded-plastic, Styrofoam-lined ice chest, of the type you filled with beer and took on picnics..Slamming through the door, letting it bang shut behind him hard enough to crack the glass, crossing the porch, Tom took the beauty of the day like a fist in the gut. It was too blue and too bright and too gorgeous to harbor death, and yet it did, birth and death, alpha and omega, woven in a design that flaunted meaning but defied understanding. It was a blow, this day, a hard blow, brutal in its beauty, in its simultaneous promises of transcendence and loss..One nurse and one nun brought Celestina into the creche behind the viewing window.."No. Just tricks. Turn a leaf to a gold piece. Seemingly."..Rowena loves you, Phimie had told him, briefly repressing the effects of her stroke to speak with clarity. Beezil and Feezil are safe with her Messages from his lost wife and children, where they waited for him beyond this life.."Periodic violent emesis without an apparent cause can be one indication of locomotor ataxia, but you've no other symptoms of it. I wouldn't worry about that unless this happens again.".."I ALWAYS EAT CAV-EE-JAR FOR BREAKFAST," said Velveeta Cheese in her stuffed-bear voice.."You remember things?" the girl asked, her fingertips still pressed lightly to his cheek..He produced her coat as if by legerdemain. Magically, she found her arms in the sleeves and the collar around her neck, though given her size lately, putting on anything other than a hat usually required strategy and persistence..He was a virile young man, desired by many, and life was short. Poor Naomi, her lovely face and her look of shock still fresh in his memory, was a constant reminder of how suddenly the end could come. No one was guaranteed tomorrow. Seize the day.."With this money, you won't have to cut back on the number of pies you give away--and all of that."..ON THE FOLLOWING Tuesday afternoon in Bright Beach, across a sky as black as a

witch's cauldron, seagulls flew out of an evil brew toward their safe roosts, and on the land below, humid shadows of the. Agnes found this turn of events amazing, amusing, ironic-and a little sad. She would have dearly loved to teach the boy to read and write, to see his knowledge and competence slowly flower under her care. Although she fully supported Barty's exploration of his gifts, and although she was proud of his astounding achievements, she felt that his swift advancement was robbing her of some of the shared joy of his childhood, even though he remained in so many ways a child. "Bet I could, and sell it, too," she said. "I might not be as good at it as I am at teeth, but I'd be better than some I've read." Bartholomew might be a teenager living with his parents or a dependent adult residing with family; if so, he wouldn't be revealed in this search, because the phone would not be listed in his name. Or maybe the guy loathed his first name and never used it except in legal matters, going by his middle name, instead. "Sure they do," Barty said. "But I think Maria embroidered the birds just because they were pretty." He was glad that he'd taken the double dose of antiemetics. In spite of this provocation, his stomach felt as solid and secure as a bank vault. "It's just that you never know what anyone's hand has been up to recently," Jacob explained. "That respectable banker down the street might have thirty dismembered women buried in his backyard. The nice church-going lady next door might be sleeping in the same bed with the rotting corpse of a lover who tried to jilt her, and for a hobby she makes jewelry from the finger bones of preschool children she's tortured and murdered." He was relieved that he hadn't moved his head or made a sound. He wanted to understand as much of the situation as possible before revealing that he was awake. Fortunately, he recognized his vulnerability. Until the evening reception for Celestina White, he must spend every hour of the day in calming activities, soothing himself in order to ensure that he would be cool and effective when the time came to act. In July 1967, at two and a half, he finally contracted his first cold, an off-season virus with a mean bite. His throat was sore, but he didn't fuss or even complain. He swallowed his medicine without resistance, and though he rested occasionally, he played with toys and paged through picture books with as much pleasure as ever. "For one thing, jurors might conclude that the authorities never really suspected you and tried to frame you for murder to conceal their culpability in the poor maintenance of the tower. By far, most of the cops think you're innocent anyway." "If I ever have trots, you'll know." And then in the Cheese voice: "CAN WE LISTEN TO THE BOOK TALK IN YOUR ROOM?". Prudence required that they strategize as though Enoch Cain were Satan himself, as though every fly and beetle and rat provided eyes and ears for the killer, as though ordinary precautions could never foil him. Although Celestina felt a little paranoid, being so security-minded in this safe neighborhood, nevertheless she searched, out the master control button and engaged the power locks. He had sat here with a pencil, making shopping lists. Now, instead of a pencil, there was the Italian-made .22 pistol. Junior blinked and dared not speak, because he didn't know any Bartholomew, and now he was certain the cop was weaving an elaborate web of deceit, setting a trap. Why would he have spoken a name that meant nothing to him? In truth, he was terrified. Although his need for her company was so profound that it seemed to arise from his marrow, a part of him marveled-and trembled-at his dedicated pursuit of her. The masterpiece that Junior purchased was small, a sixteen-inch-square canvas, but it cost twenty-seven hundred dollars. The entire picture-titled The Cancer Lurks Unseen, Version 1-was flat black, except for a small gnarled mass, bile-green and pus-yellow, in the upper-right quadrant. Worth every penny. Startled, Junior sat up straight, clutching the silencer-fitted pistol, but the cruiser didn't abruptly brake and pull to the curb in front of the Mercedes, as he expected. Frowning at him, she said, "You don't mind them around, do you, Joey? They're eccentric, but I love them very much." She got a can of soda, returned to the table, and sat down as if finished with her explorations. "You're okay, Barty." "Mommy, did you know, every day on Mars is thirty-seven minutes and twenty-seven seconds longer than ours?" As the bitch began her backswing, Junior grabbed the chair. He didn't try to tear it out of her hands, but used it to shove her as hard as he could. Although she was aware that these extraordinary events would shape the rest of her life, beginning with her actions in the hours immediately ahead of her, she could not clearly see what she ought to do next. At the core of her confusion was a conflict of mind and heart, reason and faith, but also a battle between desire and duty. Until she was. After the song concluded, Junior felt better. His heartbeat soon returned to normal. The damp palms of his hands grew dry. The study was the size of a bathroom. The cramped space barely allowed for a battered pine desk, a chair, and one filing cabinet. He'd acted boldly, recklessly, without scoping the territory to be sure Prosser was alone. The accountant lived by himself, but a visitor might be present. Considering his battered and stitched face, considering also his tragic and colorful history, Vanadium spoke with remarkably little drama. His voice was calm, nearly flat, rising and falling so little that he almost talked in a monotone. "It isn't just the rotten railing," Junior said, still paging through the report, his outrage growing. "The stairs are unsafe." "Mommy, watch!" He turned in the deluge with his arms held out from his sides. "Not scary!" She bit her lower lip, held her breath, repressed the sob that sought release, and said, "I know." In spite of the gloom, the boy's miraculous accomplishment was evident: his clothes and hair were dry as though he'd worn a coat and hood. When Renee realized that this rejection was complete and final, she-he, whatever-was transformed from well-sugared southern lady to bitter, venomous reptile. Eyes glittering with fury, lips twisted and skinned back from her teeth, she called him all kinds of bastard, stringing epithets together so effortlessly and colorfully that she enhanced his vocabulary more than had all the home-study courses that he'd ever taken, combined. "And face it, pretty-boy, you knew what I was from the moment you offered to buy me a drink. You knew, and you wanted it, wanted me, and then when we got right down to the nasty, you lost your nerve. Lost your nerve, pretty-boy, but not your need." Instead of immediately killing anyone, Junior returned to his apartment on the afternoon of December 29, and went to bed, fully clothed. To calm down. To think about focus. They introduced themselves as Knacker, Hisscus, and Nork, but Junior didn't bother to associate names with faces, partly because the men were so alike in appearance and manner that their own mothers might have had difficulty figuring out which of them to blame for never calling. Besides, he was still tired from his recent ramble through the hospital-and unnerved by the thought of some baleful-eyed Bartholomew prowling the world in search of him. "I'm not sad," Tom said, "because though I have this face here in this world, I know there's another me-in fact, lots of other Tom Vanadiums-who don't have this face at all. Somewhere I'm doing just fine, thank you." On January 3, 1968, Paul was fewer than 250 miles from Spruce Hills, Oregon. He wasn't aware of that town's proximity, however, and he didn't, at the time, have it as his destination. The Hackachaks had arrived post-grief, brought to the hospital by the news that Junior had expressed distaste at the prospect of profiting from his wife's tragic fall. They knew he had turned away Knacker, Hisscus and Nork. Exactly. The shock. The devastating loss. Junior felt it now, anew, and was afraid he might betray himself with tears, although he seemed to be done with vomiting. For more than twenty-three years, he'd given his big toe little consideration, had taken it for granted, had treated it with shameful neglect. Now this lower digit seemed precious, a comparatively small fixture of flesh, but as important to his image of

himself as his nose or either of his eyes. "No. Rowena dropped those names after the twins' first year. She and I were the only ones who ever used them. Our private little joke. Even the boys wouldn't have remembered." Even as the morning matured, the fog and the rain conspired to bar all but a faint gray daylight from St. Mary's. Shadows flourished. "That was five years ago. After more surgeries than I care to remember, I was left with these." He raised his goblin hands again. "There's pain in humid weather, less when it's dry. I can take care of myself, but I'll never be a card mechanic again ... or a magician." In those days they had no fixed names for the various kinds and arts of magic, nor were the connections among those arts clear. There was-as the wise men of Roke would say later-no science in what they knew. But Hound knew pretty surely that his prisoner was concealing his talents. The muffling fog quieted the city as much as obscured it, and the alley was surprisingly still. Many of the businesses were closed for the night, and as far as Junior could discern, no delivery trucks or other vehicles were parked the length of the block. Matching her fierce attention with a sudden intensity of his own, Joey said, "Bartholomew." Junior's fear gave way to an appreciation for the irony in this situation. Gradually, he regained the ability to smile, tossed the coin in the air, caught it, and dropped it in his pocket. In spite of the urgency of his desire, he followed a circuitous route to Victorial's, doubling back on himself twice, watching for surveillance as he drove. If he were being followed, his tail was an invisible man in a ghost car. The fire department. The firemen could come without sirens, quietly with their ladders, so as not to break Barty's concentration. That was all right, for she had done the same for Otter's elder sister, and so his parents sent him to her in the evenings. But she taught Otter more than the song of the Creation. She knew his gift. She and some men and women like her, people of no fame and some of questionable reputation, had all in some degree that gift; and they shared, in secret, what lore and craft they had. "A gift untaught is a ship unguided," they said to Otter, and they taught him all they knew. It wasn't much, but there were some beginnings of the great arts in it; and though he felt uneasy at deceiving his parents, he couldn't resist this knowledge, and the kindness and praise of his poor teachers. "It will do you no harm if you never use it for harm," they told him, and that was easy for him to promise them.
