"Probably one or more small blood vessels ruptured from the extreme violence of the emesis..Though they had expected the cause of the explosion, both Paul and Harrison were halted by shock at the sight of all this ruination. They had expected to find the car jammed into the wall of the house, never this far inside. The speed required to penetrate this distance into the structure beggared Paul's skills of calculation and made him wonder if even recklessness and alcohol were sufficient to produce, such a catastrophe..He found himself looking over his shoulder more than once. By the time lie returned to his room, he felt half crushed by anxiety..After just twenty-one days, the boy's adaptation to blindness was amazing but clearly the gathered audience stood in anticipation of something more remarkable than his unhalting progress and unerring sense of direction..With the dead woman's guest on the way, minutes were precious. Attention to detail was essential, however, regardless of how much time was required to properly stage the little tableau that might disguise murder as a domestic accident..\"Crafty men\" is what they called wizards in those days..Her mother and father still resided in a world where Phimie was alive. Bringing them from that old reality to this new one would be the second-hardest thing Celestina had ever done..Perhaps his sister intuited what Edom was about to say, because she didn't let him get started..\"Did they rush you straight in here or did you arrange all the insurance matters at reception, Mr. Pinchbeck?\"..\"By law, adoption records are sealed and so closely guarded that you'd have an easier time acquiring a complete roster of the CIA's deep cover agents worldwide than finding this one baby.\"..Junior put the money on the desk. \"Then get into the records of Family Services.\"..Great anger was apparent in the way that the uneven, red block letters had been drawn on the wall in hard slashes. But the lettering looked like the work of a calm and rational mind compared to what had been done after the three Bartholomews were printed..Two high-quality deadbolt locks. Sufficient protection against the average intruder, but inadequate to keep out a self-improved man with channeled anger..\"And in a lot of somewheres,\" said Barty, \"things are worse for us than here. Some somewheres, you died, too, when I was born, so I never met you, either.\"..Dr. Zedd's death, just last Thanksgiving, had been a blow to Junior, a loss to the nation, to the entire world. He considered it a tragedy equal to the Kennedy assassination one year previous..The spirit of Bartholomew . . . will find you ... and mete out the terrible judgment that you deserve..Tom would have edged to his right, away from Edom, if Jacob hadn't flanked him. He remembered the odd comment that the more dour of the twins had made about the Bakersfield train wreck..In the bedroom, as he opened a suitcase on the bed, he saw the quarter. Shiny. Heads-up. On the nightstand..Maria turned sideways in her chair and dealt from the top of the four-deck stack, onto the table in front of Barty..For Junior, 1968-the Chinese Year of the Monkey--would be the Year of the Plastic Surgeon. He would require extensive dermabrasion to restore the smoothness and tone to his skin, to be as irresistibly kissable as he had been before. While at it, he would need surgery to make subtle changes in his features. Tricky. He didn't want to trade perfection for anonymity. He must take care to ensure that his postsurgery look, when he let his hair grow in and perhaps dyed it, would be as devastating to women as his previous appearance..She kissed his cheek, and he pulled his arms out from under the covers to hug her. Such small arms, but such a fierce hug..Otter hesitated and said, \"Yes.\"..They had not come to Junior yesterday in their grief, if in fact they had thought to grieve..By Thursday, the eruption passed from him. Because he'd had the self-control not to claw his face or hands, he was presentable enough to venture out into the city; although if people in the streets could have Seen the weeping scabs and inflamed scratches that tattooed his body and limbs, they would have fled with the grim certainty that the black.Frankness and tough talk pleased her, because too many people dealt with her as though her spirit were as frail as her limbs. She laughed with delight-but still refused him..Junior took one of the boxed guns, a 9-mm semiautomatic. Months would probably pass before she noticed the pistol missing from the back of her closet, and by then she wouldn't know who had taken it..Never had the familiar red Bicycle design of the U.S. Playing Card Company looked ominous before, but it was fearsome now, as strange voodoo veve or satanic conjuration pattern..Once in a while, however, he reverted to his roots, to the food that gave him comfort. Thus, the cheeseburger and its decadent accoutrements..The past three years had given Wally much to celebrate, as well. After selling his medical practice and taking an eight-month hiatus from the sixty-hour work weeks he had endured for so long, he'd been giving twenty-four hours of free service to a pediatric clinic each week, providing care to the disadvantaged. He'd worked hard all his life, and saved diligently, and now he was able to focus solely on those activities that gave him the greatest gratification..\"I'm sure you would be, yes, but I'm afraid I don't have the patience to teach, I'm a performer, not an instructor. I suppose I could give you the name of a good teacher.\"..WEDNESDAY, fully two days after delivering honey-raisin pear pies with Agnes, Edom worked up the nerve to visit Jacob..\"Oh, that's me, all right. I'm on the FBI's most-wanted list for criminal pie jostling.\"..\"The doctors,\" he continued, \"needed to repair damage to the left frontal sinus, the sphenoidal sinus, and the sinus cavernous,

which had all been partially crushed by that pewter candlestick. Frontal, malar, ethmoid, maxillary, sphenoid, and palatine bones had to be rebuilt to properly contain my right eye, because it sort of ... well, it dangled. That was just for starters, and there was considerable essential dental work, as well. I elected not to have any cosmetic surgery." Tom had no idea who Perri might be, but something in the way Grace asked the question and the way she regarded Paul suggested that she knew something about Perri that had won her deep respect and admiration. Otter was silent a while. Then he said in a low voice, "Clay, and gravel, and under that the rock that bears garnets. All under this part of the city is that rock. I don't know the names." Being blind had few consolations, but Barty found that not being able to look at his uncles' files and books was one of them. In the past, he never really, in his heart, wanted to see those pictures of dead people roasted in theater fires and drowned bodies floating in flooded streets, but a few times he peeked. His mom would have been ashamed of him if she'd discovered his transgression. But the mystery of death had an undeniable creepy allure, and sometimes a good Father Brown detective story simply didn't satisfy his curiosity. He always regretted looking at those photos and reading the grim accounts of disaster, and now blindness spared him that regret. "Not that trains are any better. Look at the Bakersfield crash back in '60. Santa Fe Chief, out of San Francisco, smashed into an oil-tank truck. Seventeen people crushed, burned in a river of fire." Nolly shuddered. "The wilds of Oregon. I don't intend ever to go there until it's civilized." The Bones of the Earth. Junior's body betrayed him as before, and also in new ways that terrified and humiliated him, involving every bodily fluid except cerebrospinal. For a while, inside that rocking ambulance, he wished that he were in a gondola upon the waters of the Styx, his misery at an end. In his smooth whiteness, Junior felt a pressure on his eyes, and then came visual hallucinations, disturbing his deep inner peace. He felt someone peel up his eyelids, and Bob Chicane's worried face—with the sharp features of a fox, curly black hair, and a walrus mustache—was inches from his. The previous day, Jacob and Edom had driven back to Bright Beach, to prepare for Barty's arrival. Now they hurried down the back porch steps and across the lawn, as Maria followed the driveway past the house and parked near the detached garage at the rear of the deep property. Warily, Junior ventured into the gallery to make inquiries. He expected the staff to express utter bafflement at the name Celestina White, expected the poster to have vanished when he returned to the display window. "Even when I was a young boy," Tom continued, "the world felt a lot different to me from the way it looked to other people. I don't mean I was smarter. I've got maybe a little better than average IQ, but nothing I could brag about. Flunked geography twice and history once. No one would ever confuse me and Einstein. It's just, I felt ... such complexity and mystery that other people didn't appreciate, such layered beauty, layers upon layers like phyllo pastry, each new layer more amazing than the last. I can't explain it to you without sounding like a holy fool, but even as a boy, I wanted to serve the God who had created so much wonder, regardless of how strange and perhaps even beyond all understanding He might be." The street in front of the gallery was as flooded by a sea of fog as the alleyway at the back. The headlights of passing traffic probed the gloom like beams from deep-salvage submersibles at work on the ocean floor. Initially, when told that his patient was a Negro, Junior had been reluctant to serve as her physical therapist. Her program of rehab required mostly structured exercise to restore flexibility and to gain strength in the affected limb, but some massage would be involved, as well, which made him uncomfortable. "Evidence suggests Vanadium killed a woman here, a nurse at the hospital. Lover's quarrel, perhaps. He set her house on fire with her body in it, to cover his tracks, but he must have realized they would still finger him, so he lit out." The girl sucked in deep lungfuls of the weary clouds. "Better hold tight, Mommy, I'm gonna float." Sitting on the edge of the bed, Maria lightly salted the runny eggs and spooned them into Agnes's mouth. "Eggs is as chickens does." With remarkably little splash, the sedan eased into the water. Briefly it floated, bobbling near shore, tipped forward by the weight of the engine. As the lake flooded in through the floor vents, the vehicle settled steadily—then sank rapidly when water reached the two partially open windows. Wild exhilaration burst through him like pyrotechnics blazing in a night sky, reminiscent of the rush of excitement that followed his bold action on the fire tower. Happily, Junior had no emotional connection to Prosser, as he'd had to beloved Naomi; therefore, the purity of his. He was still her boy. As always, her boy. Bartholomew. Barty. Her sweetie. Her kiddo. Although a cold current crackled along the cable of her spine, Agnes smiled at the card. She was determined to change the dark mood that had descended over them. And the mills of capitalism provide them. Supply meets demand. Fantasy becomes a commodity, an industry. Tom Vanadium was no alarmist, and the most logical explanation came to him first. Paul had wanted to learn how to roll a quarter across his knuckles, and in spite of being dexterously challenged, he practiced hopefully from time to time. No doubt, he had sat at the table this morning—or even last evening, before bed-dropping the coin repeatedly, until he exhausted his patience. Agnes thought crazily of their early dates and the first years of their marriage. They had occasionally gone to the drive-in, sitting close. Vanadium hadn't seen the man who had clubbed him from behind and who had smashed his face with a pewter candlestick, but when he spoke the name Enoch Cain, the quality in his eyes was not compassion. No fingerprints had been left, no evidence in the aftermath of the fire at the Bressler house or in the Studebaker hauled from Quarry Lake. They wanted to go up to Barty's room, but she refused them, because there was nothing more they could do for the boy than they had done for her. "He wants to finish reading Starman Jones, and I'm not letting anything interfere with that. We're leaving for Newport Beach at seven in the morning, and you can see him then." To celebrate, upon leaving the gallery, he went to the coffee shop in the Fairmont Hotel, atop Nob Hill, determined to have a beer and a cheeseburger. Maybe his pursuit of the matter sprang from mere curiosity, the desire to discover what a child of his might look like; however, if something else lay behind his interest, the motivation would not be benign. Whatever Cain's intentions, he would prove to be at least an annoyance to Celestina and the little girl—and possibly a danger. Junior worried, however, that they had noticed him after he pulled to the curb twice behind them, that they were keeping an eye on him, ready to bolt if he got out of the car, in which case they might all make it inside before he could cut them down. His patience exhausted, the pianist wrenched his hand out of Junior's grip. He glanced around nervously, certain that they must be the center of attention, but of course the reception guests were lost in their witless conversations, or they were gaga over the maudlin paintings, and no one was aware of this quiet little drama. "No member of the society ever violates a secret confidence," Agnes assured him.
