The Hackachaks had arrived post-grief, brought to the hospital by the news that Junior had expressed distaste at the prospect of profiting from his wife's tragic fall. They knew he had turned away Knacker, Hisscus and Nork. In his entire life, Junior had never suffered this much pain without first having killed someone. Reluctant to depart until certain that his student was out of danger physically, emotionally, and mentally, Bob Chicane stayed until three thirty. When he left, he broke some bad news to Junior: "I can't keep you on my student list, man. I'm sorry, but you're way too intense for me. Way too intense. Everything you do. All the women you run through, this whole art thing, whatever all those phone books are about-now even meditation. Way too intense for me, too obsessive. Sorry. Have a good life, man." Then the left: slack yet with a pulled look. The left eyelid drooped. That side of her. But, ah, the heft of the candlestick, the smooth arc it made, and the crack of contact had been as hugely satisfying as any home-run swing that had ever won a baseball World Series. "Wally," Celestina said, without hesitation, because suddenly she saw something of a Wally in his green eyes, which were livelier than they had been before. "It's not scary," said Mary. "I just step into another place for a little, and then back. It's just like going from one room to the next. I can't get stuck over there or anything." She looked at Barty. "You know how it is, Dad." He was uncharacteristically restive. His stoic nature, his long learned Jesuit philosophy regarding the acceptance of events as they unfold, and the acquired patience of a homicide detective were insufficient to prevent frustration from taking root in him. In the more than two months since Enoch Cain vanished, following the murder of Reverend White, no trace of the killer had been found. Week by week, the slender sapling of frustration had grown into a tree and then into a forest, until Tom began every morning by looking out through the tightly woven branches of impatience. "You remember things?" the girl asked, her fingertips still pressed lightly to his cheek. Not incidentally, the project served as a vehicle by which some older citizens, in financial crisis, could receive money in a way that spared their dignity, gave them hope, and repaired their damaged self esteem. Agnes asked Obadiah to enrich the project by accepting a one year grant to record the story of his life with the help of the head librarian. After staring at the coins for a long moment, Kathleen said, "I don't think any mystery writer has ever done a series of novels about a priest detective who's also a magician." Junior suspected Magusson never had any client but himself. Fat fees motivated him, not justice. Because the glass wings of the open window didn't lie flat against the exterior wall, they blocked his view. He had to thrust himself farther through the opening, until he seesawed on the sill, before he could see the length of the entire block, in which the gallery stood at approximately the middle. No inquiring voice echoed off the passage walls, no accusatory shout. He was alone with the cadaver in this mist-shrouded moment of the metropolitan night-but perhaps not for long. Two things about him were remarkable, beginning with his face. His head was wrapped with white gauze bandages, so he looked like Claude Rains in *The Invisible Man* or like Humphrey Bogart in that movie about the escaped convict who has plastic surgery to foil the police and to start a new life with Lauren Bacall. Blond hair sprouted from the top of the elaborate wrappings. Otherwise, only his eyes, his nostrils, and his lips were uncovered. After the detective returned the box to the nightstand, the coin began to turn again. MONDAY MORNING, January 17, Agnes's lawyer, Vinnie Lincoln, came to the house with Joey's will and other papers requiring attention. Meanwhile, he became an accomplished meditator. Guided by Bob Chicane, Junior progressed from concentrative meditation with seed the mental image of a bowling pin to meditation without seed. This advanced form is far more difficult, because nothing is visualized, and the purpose is to concentrate on making the mind utterly blank. Magusson's idea of a laugh. "And they didn't even bother to post a warning. In fact, that sign was still up, inviting hikers to enjoy the view from the observation deck." He had sworn this vow before. An argument could be made that he had broken it. As one, those around the table raised their eyes to the ceiling and smiled at the sound of the downpour. Barty, with patches over his empty sockets, also looked up with a smile. Turning around in his seat, watching with amusement as Celestina fumbled nervously with the currency, the cabbie said, "You're not scared, not you. Sitting back there so silent most all the way, you weren't thinking about being famous. You were thinking about that girl of yours." Although she would have felt ridiculous phrasing this question in these words to any other three-year-old, no better way existed to ask it of her special son: "Kidido ... do you realize you're speaking of your dad in the present tense?" with an encircling and suggestive lick, and then licked his lips, too, when the cold steel slipped free of them. -though this Tom now has a rhinoceros-smacked face, this other Tom, in his own world, has an ordinary face. Poor him, so ordinary. Had Kathleen Klerkle been a man, she would have enjoyed larger quarters in a newer building in a better part of town. She was more gentle and respectful of the patient's comfort than any male dentist Nolly had ever known, but prejudice hampered women in her profession. "Would you pretend to wake up if I tried to smother you?" asked Detective Vanadium. The window was French with small panes, so Celestina couldn't simply break the glass and climb out. At the front, a soft spotlight focused on the life-size crucifix. The only additional illumination came from the small bulbs over the stations of the cross, along both side walls, and from the flickering flames in the ruby glass containers on the votive-candle rack. Three times, the singing faded away, but twice, just when he thought that she had finished, she began to croon again. The third time, the silence lasted. Tammy--the stock analyst, broker, and cat-food-eating feline fetishist-whom he had dated from Christmas of '65 through February of '66, had given him the timepiece in return for all the trading commissions and perfect sex that he had given her. Edom's twin, Jacob, who had never held a job, lived in the second apartment. He'd been there since graduating from high school. From Sparky, Tom Vanadium had borrowed a master key with which he could open the door to Cain's apartment, but he preferred not to employ it as long as he could enter by a back route. The less often he used the halls that were frequented by residents, the more likely he would be able to keep his flesh-and-blood presence a secret from Cain and sustain his ghostly reputation. If too many tenants got a look at his memorable face, he would become a topic of discussion among neighbors, and the wife killer might tumble to the truth. Now, without realizing when it had happened, he had been lowered from his knees to his right side. Head elevated and tilted by one of the paramedics. So he could expel the bile, the blood, rather than choke on it.
