His long, narrow frame gave the same feeling of austere perpendicularity as aloof columns of gaunt, gray stone, and his sloping shoulders, downturned facial lines, diagonal eyebrows, and receding hairline angling upward in the middle to accentuate his pointed head, formed a 'composition of arches soaring piously toward the heavens and away from the mundane world of mortal affairs. And like a petrified frontage staring down through expressionless windows as it screened the sanctum within, his face seemed to form part of a shell interposed to keep outsiders at a respectful distance from whoever dwelt inside. Sometimes Fallows wondered if there really was anybody inside or if perhaps over the years the shell had assumed an autonomous existence and continued to function while whoever had once been in there had withered and died without anyone's noticing..That's right." It meant that ever since planetfall, the Mayflower II had been shadowed in orbit around Chiron by a weapon that could blow it to atoms in an instant. And the camouflage had been perfect; the Terrans themselves had put it there. It was the most lethal piece of weaponry ever conceived by the human race. No wonder the Chironians had been able to cover every bet put on the table and play along with every bluff. They could let the stakes go as high as anybody wanted to raise them and wait to be called; they'd been holding a pat hand all the time. Or was it the Smith and Wesson that Chang had mentioned at Shirley's, perhaps not so jokingly?.attitude, the girl retained some of the gullibility of a child. "But how'd you do what the cops couldn't?".Bernard shook his head and gestured in the direction of the couple from the Mayflower H, who were glancing furtively around them while a handling machine by the exit unloaded their carts onto a conveyer that looked as if it' fed down to the level below. "But look what's happening," he said. "How long can you keep up with that kind of thing? What happens when everyone starts acting like that?".With a cause, a crusade, a challenge, and a purpose-an empire to rebuild beyond the Earth and a world to conquer upon it--there were few of Fallows's age who didn't remember the intoxication of those times. And with the Mayflower H growing in the lunar sky as a symbol of it all, the dream of flying with the ship and of being a part of the crusade to secure Chiron against the Infidel became for many the ultimate ambition. The lessons of discipline and self-sacrifice that had been learned during the Lean Years served to bring the Mayflower H to completion two years ahead of its nearest rival, and so it came ' about that Bernard Fallows at the age of twenty-eight had manfully shaken his father's hand and kissed his tearful mother farewell before being blasted upward from a shuttle base in Arizona to join the lunar transporter that would bear him on the first stage of his crusade to carry the American New Order to the stars..That's a gamble we'll have to take," Sirocco said. "Sterm will hardly order them to fire on the rest of the ship if he's in it."."And their idea was that Snow White?she ought to look virginal. I don't know why."."It doesn't matter," Colman told him. "It's different in different places. It might be the

best hunter in the village or the guy who's killed the most lions. It might be the way you paint your face. Through most of history it's been money. What you buy with it isn't important. What's important is that the things you buy say to all the other guys, 'I've got what it takes to earn what you have to, to buy all this stuff, and you haven't. Therefore I'm better than you.' That's what it's all about." "I probably will," the girl declared..resulting in splashed upholstery and wet fur. In the console between the seats were molded-plastic."Are you never serious?" Micky asked. "Are you always making with the wisecracks, the patter?" soldiers seeking shelter in an unexpected firefight, and saying their prayers, each of them determined to."Fear implies respect," Leilani said."They're okay," Corporal Swyley's disembodied voice ? whispered from no definable direction. "We're making ourselves look like jerks." "When did it stop?or did it ever?" Geneva asked. Her softly spoken question reverberated hollowly."I said you can stuff it." Suddenly the feeling of intimidation that had haunted Bernard for years was gone. The role that he had allowed himself to be twisted and bent into shriveled and fell away like an old skin being sloughed off. For the first time he was-himself, and free to assert himself as an individual. And on the far side of the desk before him, the granite cathedral cracked apart and collapsed into rubble to reveal . . . nothing inside. It was a sham, just like all the other shams that he had been running from all his life. He had just stopped running..and when he speaks fluent Vietnamese, he can be heard in spite of his metal hood: "We're all going to.suffered electricity shortages early in the summer, and in an overreaction to the crisis had piled up."Looks like it," Sirocco agreed. "Looks like we're in for another strip down on that goddamn pump," he murmured without turning his head. "Looks like it," Fallows agreed with a sigh.."Evidently so. I think I'll buy me a girl cat and call her Mr. Rover."
