What are you-". "Frankly," Leilani said, "neither do I. But the alternative is too hideous to consider, so I just suspend my." "I didn't say that. But they're funny people . . . cagey. They're not exactly giving straight answers about everything." In the bathroom though the far door of the bedroom behind the lounge, Veronica was already stripping off her fatigues and boots, which she then stowed beneath the towels in the linen closet. By

Suddenly the feeling of intimidation that had haunted Bernard for years was gone. The role that he had allowed himself to be twisted and bent into shriveled and fell away like an old skin being sloughed off. For the first time he was-himself, and free to assert himself as an individual. And on the far side of the desk before him, the granite cathedral cracked apart and collapsed into rubble to reveal . . . nothing inside. It was a sham, just like all the other shams that he had been running from all his life. He had just stopped running..why are you painting it?" he asked. The whole planet, he realized as he reflected on it, was a powerhouse of progress, unchecked by any traditions of unreason and with no vested-interest obstructionists to hold it back. If the pattern continued until Chiron became a fully populated world, it would effectively leave Earth back in the Stone Age within a century. "Have you actually flown it anywhere yet?" he asked, turning his head toward Kath. "The Kuan-yin . Has it been anywhere since it arrived in orbit here?".anymore, and he kept talking until he was wrung dry of words..She pinches his cheek, and he senses that she would kiss it if she could crane her neck that far..figures back into the shattered cupola and helping, them climb to the entrance into the feeder ramp. Malloy had again discouraged ideas of attempting to impersonate SD's. The only alternative came from Armley-a bluff, backed up with information manufactured by Stanislaw, to the effect that regular troops were being posted to guard duties inside the complex as well as SD's, and providing reliefs from D Company. Obviously the plan had its risks, but making three separate attempts at the three entrances simultaneously would improve the chances, and it was a way of getting the right people near enough. In the end, Sirocco agreed. Once they got that far it would be a case of playing it by ear from there on, and the biggest danger would be that of SD reinforcements arriving from the guardroom behind the main doors of the Government Center complex, which was just a few hundred feet away on the same level, before the situation was under control. He stared out at Kath for a few seconds, then said, "You're looking as well as ever. Are the children keeping fine too?".Bernard spread his hands resignedly. "Very well, I can see the sense in being prepared. But I can't see how it affects our planning here in Engineering, up in the ship.".."But who decides who works here? "We're convinced 'this is the only way to go. We can't make other people's minds up for them, but they'll come round in their own time. Anything else would cause worse problems.".."For Christ's sake, that's TV fiction. She doesn't exist..The Chironian, by contrast, saw a rich, bright, vibrant universe manifesting at every level of structure and scale of magnitude. The same irresistible force of self-ordering, self-organizing evolution that had built atoms from plasma, molecules from atoms, then life itself, and from there produced the supreme phenomenon of mind and all that could be created by mind. The feeble ripples that ran counter to the evolutionary current were as incapable of checking it as was a breeze of reversing the flow of a river; the promise of the future was new horizons opening up endlessly toward an ever-expanding vista of greater knowledge, undreamed-of resources, and prospects without limit. Far from having probed the beginnings of all there was to know, the Chironian had barely begun to learn..Good pup. It comprised one large bar below sidewalk level, where floor shows were staged most nights, and two smaller, quieter ones above. Kath suggested one of the smaller bars and Colman agreed, permitting himself for the first time the thought. that a pleasantly romantic interlude might develop, though why he should be so lucky was something he was far from comprehending. If it happened, he wasn't going to argue about it..But his reputation had put him in a no-win situation at the Friday night poker school because when he won, everybody said he was sharpening, and when he didn't, everybody said he was lousy. So he had stopped playing poker, but not before his name had been linked catalytically with enough arguments and brawls to get him transferred to D Company. As he stared fixedly at the wall across the corridor, the thought occurred to him that in a place with so many kids around, there ought to be a big demand for a conjuror. The more he thought about it, the more

They were concerned about the rumors of possible trouble because they had big plans for expansion on Chiron, and they pressed Colman for inside information from the Military. Colman ' -d he didn't have any. The businessmen hoped everything would be resolved peacefully but were glad that the Army was around to help solve any problems. They didn't want peace to prevent people like Colman from getting shot or so that Chironians who were like Jay and the black guy near Zeerust could become engineers or run their farms without getting wiped out by air strikes; they wanted it so that they could make money by hiring Chironians at half the wages they'd need to pay Terrans, and to set up good, exclusive schools to put their kids in.
