Then the Chironians had moved..Leilani squinted with righteous indignation. "So you refused to give it to him." "Not likely." Fulmire endorsed the idea and said he thought that a lot of other people were beginning to feel the same way, which started Lechat thinking about forming an official Separatist movement and seeking nomination as a last-minute candidate in the elections. Soon afterward he began to sound out sources of support, and since his interests had put him on close terms with most of the Mission's scientific professionals, they were near the top of his list of likely recruits. Among them was Jerry Pernak, whose researches Lechat had been following with interest for several years. Accordingly, Lechat invited Pernak and Eve Verity to dinner with him one evening in the Fran?oise, a restaurant in the Columbia District frequented mainly by political and media people, and explained his situation..gunfire, leaps at him, like a playful dog, and tosses his hair..wrapping partly around his right hind leg..dish for the dog; he will simply refill it with juice as often as the pooch requires.."A shuttle's lifting off from Bay Five at 2130," she said. "I'll be coming off it about thirty minutes before it leaves. All I need, is to get over into Chironian territory. I can make it on my own from there." Sirocco wrinkled his lip, showing a glimpse of his moustache. "You can't fool me, Steve. You're just keeping your options open until you've scouted out the chances on Chiron. Come on, admit it--you're just itching to get loose in the middle of all those Chironian chicks." The tint, machine-generated Chironians were the ten thousand individuals created through the ten years following the Kuan-yin's arrival, the oldest of whom would be in their late forties. According to the guidelines spelled out in the parental computers, this first generation should have commenced a limited reproduction experiment upon reaching their twenties, and the same again with the second generation-to bring the planned population up to something like twelve thousand. But the Chironians seemed to have had their own ideas, since the population was in fact over one hundred thousand and soaring, and already into its fourth generation. The possible implications were intriguing..cudgel, just behind Leilani's two-hand grip..deception. Perfect poise is the key to survival. Mom always said so, and Mom knew her stuff.."Thank you. "Leilani?".The next part was going to be the trickiest. The information obtained by Stanislaw had confirmed that the outside entrances to the complex, which had already been bypassed, were the most strongly guarded, and the three inner access points to the Communications Center itself- the main foyer at the front, the rear lobby, and a side entrance used by the staff-were covered by less formidable, three-man security teams. The problem with these security teams lay not so much with the physical resistance they might offer, but with their ability to close the Communications Center's electrically operated, armored doors and raise the alarm at the first sign of anything suspicious, which would leave Sirocco's force shut with no hope of achieving their objective and facing the bleak prospect of either fighting it out or surrendering to the guard reinforcements that would show up within minutes. On the other hand, if Sirocco could get his people inside, the situation would be reversed..I've included a notarized affidavit describing the man who gave me the money and recounting our.Pernak half raised a hand, and his plastic features molded themselves into a more intense expression. "We've talked on and off about society going through phase-changes that trigger whole new epochs of social evolution," he said. "Well, that's exactly what's happened down there. You can't extrapolate any of our rules into this culture. They don't apply. They don't work on Chiron." "Are you never serious?" Micky asked. "Are you always making with the wisecracks, the patter?" We're taking him up to have a look at it." "Well, that's something, anyway," Sirocco said. "Stay there, Bret, and don't let anyone touch anything. I'll get onto Brigade right away. We'll have some more people over there in a few minutes." He returned to Colman. "Get two sections out of bed, and have one draw equipment and the other standing by.
