His year's.She humphed again and ignored me..A faint orange glow outlined the top of a craggy boulder, and they hurried toward it over the crumbly ledge. When they climbed the rock, they saw that the light came from behind another wall of stone further away, and they scrambled toward it, pebbles and bits of ice rolling under their hands. Behind the wall they saw that the light was even stronger above another ridge, and they did their best to climb it without falling who-knows-how-many hundreds of feet to the foot of the mountain. At last they pulled themselves onto the ledge and leaned against the side, panting. Far ahead of them, orange flames flickered brightly and there was light on each face. For all the cold wind their faces were still shiny with the sweat of the effort..my console keys and shouting his best Navy profanity at the Zorphs who had just zapped him for balls-hung in dusters from the pipes that supplied them with high-pressure oxygen..He smiled faintly. "I didn't know much about anything then. Too many people were already dead. If I'd gone to a hospital, they'd have wanted to know how I'd stayed alive so far. Feed me another five tracks, Rob; broad spectrum this time."..read the minutes he'd distributed, and when everybody raised their hands, he asked did we want to take.I will?when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's *Saint Genet*.. . . and I guess if you kept changing the batteries it would run forever.
